The following RG / RC Series System Wiring Maps, along with Wire Harness Listings, are being made available through this distribution. Some of these cables and harnesses, may or may not be so easily located or identified in current Technical Manual Parts Lists. Therefore, these listings were designed to aid in identifying cables and harnesses for urgent ordering or stocking purposes.

NOTE: We have delayed release of this document until sufficient quantities were available in stock. At this time, most cables and harnesses are in stock and available for distribution.

It is suggested that this document be split apart, keeping product related Maps and Lists separate, to be filed in their respective catalogs for ease in accessibility.
